

As a Delaware Medicaid & Medical Assistance (DMMA) health plan, Delaware Physicians Care, Incorporated (DPCI) is responsible for all covered medical conditions within the Basic Benefit Package for each DPCI member. The package includes inpatient, outpatient and ambulatory medical and surgical services, gynecological, obstetric and family planning services, limited behavioral health services and other services.

Please refer to **Section 4, Covered Services** in the **Delaware Physicians Care Provider Manual** for more detail on covered and non-covered services:

http://www.delawarephysicianscare.com/pdf/2010_DEProvManual.pdf

Providers may also access the Delaware Medical Assistance Program (DMAP) website for the most current lists of covered and non-covered procedure codes. **Note:** It is important to review the Pricing Action Codes section within the code documents to accurately identify non-covered and obsolete codes.
